1 Introduction

1.1 GSA Reverse Auctions

ReverseAuctions.gsa.gov is an efficient and cost-effective platform for buying non-complex commodities and simple services. It's designed to drive down the total cost of acquisitions and increase savings to customers and taxpayers.

Use ReverseAuctions.gsa.gov to facilitate your request and submission of quotes for simple commodities and services through GSA Multiple Award Schedules (MAS) and Blanket Purchase Agreements (BPAs).

On ReverseAuctions.gsa.gov, you can solicit non-complex commodities and simple services while the sellers successively bid prices down until the auction time ends. An award can be made to the apparent low bidder if it meets the solicitation's terms and conditions and is technically acceptable.

In order to use ReverseAuctions.gsa.gov, you'll need a valid GSA eBuy username and password.

If you don't have an eBuy username and password, register here:

<https://www.ebuy.gsa.gov/advantage/main/registration.do>.

NOTE: OPEN MARKET - Vendors

GSA will collect a OM fee on all Platform Open Market acquisitions. GSA will collect the OM fee per line item to be remitted by the Vendors to GSA. On the Platform, the bid price offered by the Vendor and viewed by the Buyer is inclusive of the OM fee. When a Vendor places a bid in the Platform then the Platform will automatically calculate the OM fee based off the Vendor's unit price and will display to the Vendor the total OM fee for the line item based off the line item quantity. Competing bids in an auction will be determined to be higher or lower relative to each bid based on the total bid amount which is inclusive of the OM fee; thus Vendors acknowledge that the Vendor is required to account for this in any Vendor bidding strategy.

OM fee information is displayed separately on the award screen for vendors only.

Vendor shall remit the OM fee to GSA, FAS, NITCP through Pay.gov and acknowledges as a condition of bidding on an Open Market Auction that Vendor shall accept any and all additional terms and conditions that exist associated with pay.gov as necessary to utilize that pay.gov system. Pay.gov terms and conditions as well as instructions on how to use that are at: <https://www.pay.gov/public/home>. Pay.Gov displays GSA then under that GSA NITCP. Please make sure payment made to GSA NITCP. Vendors are encouraged and solely responsible for monitoring pay.gov for any changes in pay.gov terms and conditions that may occur prior to bidding on a Platform Open Market auction.

See the current Terms and Conditions on the GSA Reverse Auction site reverseauctions.gsa.gov for more information on Open Market and Open Market fees.

2 Support and System Information

2.1 Questions

For general questions about Reverse Auctions, you can email us at reverseauctionshelp@gsa.gov or call us at 855-372-1094.

The Reverse Auctions helpdesk is available Monday through Friday from 7:00 am to 6:00 pm, Central Time Zone.

2.2 Training

For Vendor Training, contact us at ReverseAuctions@gsa.gov.

2.3 System timeout

User sessions will timeout after 60 minutes of inactivity. A reminder will pop up 5 minutes prior to expiration, allowing users to extend their session. Note: session timeouts are only reset when a user navigates to a new page or submits a form.

2.4 System Availability

The GSA Reverse Auctions system will be operational:

- Monday through Friday 24 hours a day
- Saturday from 12AM-5AM and 8AM-11:59PM Central Time Zone
- Sunday from 12AM-6AM and 10AM-11:59PM Central Time Zone

The system will not be operational during the following maintenance windows:

- Saturday 5AM-8AM Central Time Zone
- Sunday 6AM-10AM Central Time Zone

A system maintenance page will be displayed when a user tries to access the system during a maintenance window informing the user that the site is unavailable due to system maintenance.

Auctions may be automatically extended based on the circumstances indicated in the Terms and Conditions. It is recommended Buyers and Vendors understand how the automatic extension works. Please visit the Terms and Conditions at

http://reverseauctions.gsa.gov/html/terms_and_conditions.html

3 Logging in to Reverse Auctions

This Chapter describes how to access GSA Reverse Auctions and log in as a Vendor. In order to log into GSA Reverse Auctions you will need to have a valid GSA eBuy Vendor username and password. If you do not have an eBuy username, you can register at <https://www.ebuy.gsa.gov/advantage/main/registration.do>.

Vendors (other than schedule vendors) desiring to participate in open market auctions (“Open Market vendors”) must first register in the System for Award Management (SAM) (SAM.gov) as a condition of gaining access to the Platform; then Open Market vendors must register with the Platform to be able to participate in open market auctions. A vendor may have more than one user registered. Schedule vendors are able to view and participate in Open Market auctions when they log in with their schedule contract number.

To log into GSA Reverse Auctions:

1. Type <http://reverseauctions.gsa.gov/> into your web browser.

The Reverse Auctions Home Page, shown in Figure 3-1, will be displayed.

Figure 3-1 Reverse Auctions Home Page

2. Click the **Vendor Login** link.

The Vendor Login authentication box, shown in Figure 3-2, will be displayed.

3. Enter vendor information on the screen and click the **Submit** button. An email containing a link will be sent to the email address provided on the registration screen.
4. Complete the registration by clicking the link in the email.

Note: When registering with the Platform, Open Market vendors will be able to and are encouraged to input all of their applicable NAICS codes.

Open Market vendors may have multiple user accounts registered on the Platform and associated with the vendor and the vendor's DUNS number.

Vendors (other than schedule vendors) that desire to bid on Open Market auctions must follow this Platform registration process.

4 Vendor Dashboard

The Vendor Dashboard is the vendor landing page, and can be accessed by vendors once they have been authenticated by the system. It provides a snapshot of some of the modules of Reverse Auctions. The vendor dashboard provides access to the following:

- 4.1 Active Auctions:** Displays a list of Active Auctions and allows a vendor to access auction details and bidding information, as well as place Bids for Active Auctions.
- 4.2 Awards:** Displays a list of auctions awarded to the logged in Vendor, and provides access to auction details and bidding information.
- 4.3 Messages:** Displays system generated messages regarding bidding as well as system alerts and updates, such as the bidding status of an auction.

To access the Vendor Dashboard:

1. Log into Reverse Auctions as a **Vendor**, as described in Section 3.

The Vendor Dashboard, shown in Figure 4-1, will be displayed. For Open Market vendors, the Open Market Vendor Dashboard shown in Figure 4-2 Open Market Vendor Dashboard will be displayed.

4.3 Messages

The **Messages** section of the vendor dashboard, shown in Figure 4-7, displays messages about bidding/auction summary information that is relevant to the vendor. It also allows the vendor to access details of auctions related to the messages and to place bids. The messages pane contains recent system generated messages regarding bidding, system alerts, and vendor initiated questions and updates. Links to relevant activities may be embedded in the messages to enable the vendor to navigate to the auction or other event that requires interaction.

2. To access Line Item details, click the download button.

The Line Item details for the auction will be listed in the spread sheet downloaded

Note: Bid amounts on the Line Item Details screen are only viewable to vendors who have placed an initial bid.

3. For information on placing bids see Section 5.1.1 – Placing Bids .

5 Auctions

The **Auctions** module allows a Vendor to view Line Items for Active Auctions and Auctions in a Preview status and to place bids for Active Auctions. The Vendor can also view bidding details, submit questions to the Buyer, and add attachments to the auction.

5.1 Active Auctions

Active Auctions allows a Vendor to view Auction and Line Item Details for Auctions that the Vendor is allowed to bid in, and to place bids for Active auctions.

To view Auction details and submit bids for Active Auctions:

1. Log into Reverse Auctions as a Vendor and click **Auctions** on the menu bar at the top of the screen.

The **Active Auctions** screen, shown in Figure 5-1, will display a list of Active Auctions and Auctions in a Preview status. For Open Market auctions, the **Open Market Active Auctions** screen, shown in Figure 5-2 Open Market Active Auctions, will display a list of Active Auctions and Auctions in a Preview status.

(Use the **Sort By** drop-down list to filter the list of auctions to display only auctions closing on the current day by selecting '**Closing Today.**' Use the **Agency** drop-down list to filter the list of auctions by a specific Agency. For Open Market auctions, use the **Classification code** (Federal Supply Class as setup by the Buyer) and/or **NAICS** drop-down lists to filter auctions by classification code and/or NAICS code. Open Market vendors are also able to search for auctions by entering auction description, Classification code or NAICS code in the search box).

Figure 5-3 Auction Details and Place Bids

5.1.1 Placing a Bid

Bids: Bids are in whole dollar amounts and should reflect the total price for the line item, **not a unit price.**

Bid Types: There are three types of bids that can be placed on reverse auctions; flat bids, proxy bids, and no bids. Proxy bids and no bids are optional.

- **Flat Bids:** A flat bid is a bid placed by the Vendor that the Vendor is willing to sell a product for. A flat bid can be placed at or below the MAXIMUM bid (apparent low bid minus the decrement), which would allow for the vendor to also submit a proxy bid; or a flat bid can be placed at a HIGHER price than the APPARENT LOW bid, which would preclude the vendor from submitting a proxy bid. Flat bids in the range higher than the Maximum (apparent low bid minus the decrement) but lower than or equal to the Apparent Low are permitted. Flat bids placed above the Maximum bid (apparent low bid minus the decrement) can still be considered by the buyer for award.
- **Proxy Bids:** A proxy bid is the lowest amount that a vendor is willing to bid. The reverse auction system will bid automatically on behalf of the vendor until this price is reached. Proxy bids are optional and can only be placed in conjunction with a flat bid.
- **No Bid:** A vendor may elect to not place a bid for a particular auction by selecting the **No Bid/Opt Out** button. Vendors can also provide a statement to the buyer why they elected to no bid. Note: if a vendor has an active bid on an auction they will not be able to place a no bid. If a vendor places a no bid on an auction they can place a bid at a later time if they choose to.

Starting price: The first bid placed during an auction will set the starting price for the auction.

Bid decrement: An amount set by the buyer that specifies the minimum reduction in a bid placed by a vendor compared to the apparent low bid in the auction.

Maximum bid: The maximum bid is the apparent low bid minus the decrement.

Note: For a vendor's initial bid, the apparent low bid and maximum bid amounts will not be visible.

To place a bid for the Line Item(s):

1. Click the **Auction Id** from the dashboard. (Shown in Figure 5-4.)
The Auction details screen, shown in Figure 5-4, will be displayed.

Warning: In order to view the most up-to-date information, please click on the refresh button.

Be advised - By participation in a reverse auction the Offeror agrees to disclosure of prices submitted to other offerors participating in the reverse auction.

Notice: The governing time for submission of bids is the time displayed by the GSA platform clock.

Bids placed in an auction may not be withdrawn. An offeror's request to withdraw any quote or proposal prior to award shall be directed to the Buyer for consideration and shall be handled in accordance with the terms of the solicitation and applicable regulations.

When a seller timely elects to utilize proxy bidding, the Reverse Auctions system will lower the vendor's bid as needed to make the vendor the current apparent low price bidder of the auction up to the threshold of their proxy bid.

Sellers are encouraged to ensure they stay familiar at all times with the latest version of the User FAQs and Platform Terms and Conditions that Sellers agree to as a condition of participation on the platform, particularly regarding bidding.

It is the Seller's responsibility to verify that bids are correct prior to submittal. The Seller will be obligated to honor, and will be bound by any bid that it may submit, if that bid is accepted by the Buyer and an award made by the Buyer to the Seller.

The Government encourages competitive bidding but cautions Sellers not to allow intense bidding to cause the Seller to offer a bid at an unrealistic price (e.g., a price which might force a Seller to fail to deliver on the contract which could result in a termination for default or other adverse consequences to the Seller). Offerors should carefully evaluate their cost structure prior to participating in any auction.

5.1.2 Placing a No Bid / Opt Out

To place a No Bid for the Line Item:

1. From the Auctions Details page click the **No Bid/Opt Out** button.

5.3 Auction Amendments

Auctions may be amended by buyers while the auction is in active or preview status. When a buyer performs an amendment to an auction, line item or attachment, email notifications regarding the amendment are sent to all of the vendors selected by the buyer to participate in the auction. When a buyer amends an auction, line items, or attachments, the amendment may result in the cancellation of all vendor bids on that line item. Vendors will be notified via email and a system message that their bids were canceled due to an amendment. A table listing the amendable fields and if the amendment will result in vendor bid cancellation is shown below.

6 Awards

The Awards module allows a vendor to view a list of auctions for which the Buyer has executed the platform’s award feature. The Vendor can also access Auction and bidding details, submit questions to the Buyer, and add attachments to the auction. It is advised that the seller’s review the user FAQ and the T&C to ensure they are familiar with the meaning of the term “award” as used in the platform.

To view a list of Awards:

1. Log into Reverse Auctions as a Vendor and click **Awards** on the menu bar at the top of the screen.

The **Awarded Auctions** screen, shown in Figure 6-1 Auctions Awarded, will display a list of line items that have been awarded to the Vendor.
